Version #1.0
Date: February 18, 2016

Project Statement
iNEMI Environmentally Sustainable Electronics TIG
Value Recovery from End-of-Life Electronics Project

_________________________(“Participating Member”) agrees to participate in the iNEMI project
entitled Value Recovery from End-of-Life Electronics Project1 pursuant to and as defined in the iNEMI
Project Participation Agreement and to carry out the tasks as assigned and agreed to in the Statement of
Work2 for this project. Pursuant to the iNEMI Intellectual Property Policy, the participating member
does □ does not □ (check one)

have any intellectual property or background technology to disclose in conjunction with this project.3 & 4

NIST participation in any iNEMI project is subject to the availability of funds and necessary resources.
No funds are committed or obligated by this agreement. Notwithstanding anything to the contrary herein,
data, information or conclusions created by employees of NIST are not subject to copyright protection and
will be made available to any interested party on an unrestricted basis.

Approval of this Project Statement is a two-step process. The first signature verifies company
participation, while the second approval acknowledges agreement to the specific tasks and contributions
required from each participant.

The iNEMI Value Recovery from End-of-Life Electronics Project requires each participating company to
commit to the following:

1 A 2/3 majority of iNEMI Value Recovery from End-of-Life Electronics Project participants must be in favor of admitting
new companies after the initial enrollment period is over.

2 iNEMI Value Recovery from End-of-Life Electronics Project Statement of Work (SOW), Version 1.0; February 18, 2016.

3 As provided for in the iNEMI Intellectual Property Policy, if background technology or intellectual property is claimed, a
Declaration of same must be provided, in writing, to the iNEMI Secretariat within 45 days of signing this agreement.

4 Intellectual property or background technology disclosed in a declaration can only be used by the project participants for the
purpose of research in connection with this project, and not for commercial purposes.
• Participating companies should expect to contribute 8 hours per person per month of time to the project per year. The second signature below indicates agreement to fulfill these obligations.

• In the event project expenses are incurred, the costs will be shared evenly among participants. It is estimated that such costs will not exceed $0 per company. iNEMI Affiliated Organizations will be exempt from project expenses.

• The project will adhere to the terms of the iNEMI Intellectual Property Policy for declaring, identifying, and disclosing background (confidential) technical information and background intellectual property.

• The data, information, and conclusions developed during this project will be available only to participating members of iNEMI who have formally joined this project by signing this Project Statement. All iNEMI members will be eligible to receive status reports (e.g. at member council meetings) as well as a summary report once it is released at the end of the project. The status reports as well as the summary report will not contain data that the participants determine⁵ should only be shared within the project. Except for data, information, or conclusions created by NIST employees as stated above.

• If iNEMI or one individual would like to present data or information gained in this project to another company or companies, in technical paper(s), or in article(s), every member of the project team must be informed and a simple majority is required for approval. The decision must be made during a regularly scheduled project meeting.

• Control of the data and information gathered during the execution of this project will transfer to the iNEMI Secretariat 12 months after the conclusion of the project. After that period all requests for publication or transmission of data collected must be reviewed and approved by iNEMI. If the project is extended to include additional phases, the Project Team will continue to provide approvals for communication outside the Project Team as outlined in the bullet above.

⁵ The data not included in the status reports or summary report will be determined by majority vote of the participants.
