Connect with and Strengthen your Supply Chain

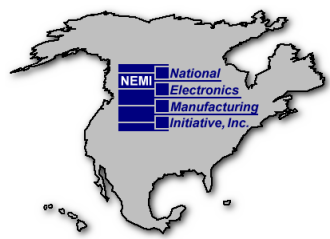

Scope of B2B Session

Focus of this session is on Data exchange between trading partners to meet requirements of RoHS and WEEE:

- **What data needs to be exchanged?**
- **What alternatives are available to accomplish?**
- **What can be done to come up with effective, low cost approaches for electronics industry?**
- **What are the major challenges to meet these needs?**
- **What can we learn from others (e.g. auto. Industry)?**
- **When WEEE requirements become clear, will that impact the likely approaches?**

Connect with and Strengthen your Supply Chain

Goals of B2B Session

- **Get basic understanding of RoHS B2B landscape**
 - Needs
 - Alternate approaches
 - Industry challenges
- **Identify gaps not being addressed**
- **Understand priority of work before us**
 - Tight schedule
