

Congratulation to iNEMI Office in Shanghai

Sino-Swedish Microsystem Integration Technology Center
Shanghai University

(上海大学中瑞联合微系统集成技术中心)

About SMIT Center

Established by Chalmers University of Technology, Sweden and Shanghai University, China.

Dedicated to the development of the microsystem integration technology research and education.

Funded primarily by Shanghai and Gothenburg City Governments, as well as a number of member of companies.

The vision of the Center is to bring the Chinese and Swedish microsystem integration industry into the world class.

The missions of the Center are

- Application driven research to serve the industries
- Master and Ph D students education through joint research programs
- A channel to enhance economic and technical exchange

SMIT Center and iNEMI Collaboration

Workshop

- iNEMI Roadmap Asian Workshop, Shanghai, June 27, 2006.
- About 30 people participated
- Discussed roadmap for microelectronics industry
