MDP (Material Declaration Processor)

- Target customers: Small and median size component suppliers.
- Major functions:
 - Manual edit MCD data.
 - Manage the MCD data in a simple database (RNTD) environment.
 - Automatically generate MCD forms based on customer requirements or standard formats (JGPSSI, RN2A10, and others).
 - Input MCD data from standard formats (such as JGPSSI, and RN2A10).
 - Optional datalink available for integration with other systems.

MDP (Material Declaration Processor)
