Project Statement iNEMI Packaging TIG iNEMI Primary Factors in Component Warpage

Version: 3.0
Date: September 21, 2010

_____ (“Participating Member”) agrees to participate in
(Company name)
the iNEMI project entitled Primary Factors in Component Warpage pursuant to and as defined in the iNEMI Project Participation Agreement¹ and to carry out the tasks as assigned and agreed to in the Statement of Work² for this project. Pursuant to the iNEMI Intellectual Property Policy, the participating member

does does not (check one)

have any intellectual property or background technology to disclose in conjunction with this project.^{3 & 4}

The iNEMI Primary Factors in Component Warpage Project requires each participating company to commit to the following:

- Participating companies should expect to contribute 1 man month of time to the project per year.
- The Primary Factors in Component Warpage Project Statement of Work² defines this project as a multi-phase project. This Project Statement only addresses Phase 1. The investigations for Phase 1 are not expected not to incur project expenses; however, in the event project expenses are incurred, the costs will be shared evenly among participants.

¹ A simple majority of the iNEMI Primary Factors in Component Warpage project participants must be in favor of admitting new companies after the initial enrollment period is over.

² iNEMI Primary Factors in Component Warpage project Statement of Work (SOW), Version 3.0.

³ As provided for in the iNEMI Intellectual Property Policy, if background technology or intellectual property is claimed, a Declaration of same must be provided, in writing, to the iNEMI Secretariat within 45 days of signing this agreement.

⁴ Intellectual property or background technology disclosed in a declaration can only be used by the project participants for the purpose of research in connection with this project, and not for commercial purposes.

- The Primary Factors in Component Warpage project team will develop and release the Statement of Work for any subsequent work (Phase 2). Before the start of Phase 2 of the Primary Factors in Component Warpage Project, the project participants will submit a new SOW for Technical Committee review and approval outlining the new tasks and providing an assessment of any costs that would be incurred in the execution of Phase 2. If project expenses will be incurred during Phase 2 of the Primary Factors in Component Warpage Project, the costs would be shared equally among the Phase 2 project participants.
- The iNEMI Primary Factors in Component Warpage Project requires iNEMI membership. Therefore, according to iNEMI By-Laws, non-members who are determined to have critical expertise in the execution of the project can petition iNEMI's VP of Operations to become non-member participants. However, non-member participants can only receive project results specific to their contribution or donation to the project. In addition, non-member contributors' attendance and participation in the project meetings is limited to subjects concerning their contribution or donation, with an approval for attendance by a majority vote of iNEMI members who have signed this Project Statement. The project team will acknowledge non-member contributions or donations in project publications, presentations, and the final project summary documentation.
- The project will adhere to the terms of the iNEMI Intellectual Property Policy for declaring, identifying, and disclosing background (confidential) technical information and background intellectual property.
- The data, information, and conclusions developed during this project will be available only to participating members of iNEMI who have formally joined this project by signing this Project Statement. All iNEMI members will be eligible to receive summary documentation once it is released by the project team at the end of the project. The summary documentation will only contain data that the project participants determine⁵ should be shared.
- If iNEMI or one individual would like to present data or information gained in this project to another company or companies, in technical paper(s), or in article(s), every member of the project team must be informed and a simple majority is required for approval.
- Control of the data and information gathered during the execution of this project will transfer to the iNEMI Secretariat 12 months after the conclusion of the project. After that period all requests for publication or transmission of data collected must be reviewed and approved by iNEMI. If the project is extended to include additional phases, the Project Team will continue to provide approvals for communication outside the Project Team as outlined in the bullet above. The iNEMI Secretariat will take into consideration any recommendation from the project team on limiting the distribution of the project information.

⁵ The data to be excluded in the summary documentation will be determined by a simple majority vote of the participants.
