

# Join us for the 2009 iNEMI Roadmap Workshop 欢迎参加 2009 iNEMI 路线图研讨会

held in conjunction with ICEPT-HDP

ICEPT-HDP 联合举办

Zhangjiang, Shanghai, China

中国·上海·张江

**28 July 2008 / 09:00-17:00**

**2008年7月28日 / 09:00-17:00**

The iNEMI roadmap charts the future manufacturing technology and infrastructure needs of the global electronics industry, identifying the key developments needed to ensure the competitiveness of the supply chain over the next decade. Our roadmap is recognized worldwide as an important tool for defining the "state of the art" in the electronics industry as well as identifying emerging and disruptive technologies. It also helps industry, government funding agencies and university-based research programs set critical R&D priorities.

Plan to participate in the Asian workshop if you want to:

- Get an advance look at select roadmap chapters.
- Ensure inclusion of key Asian issues in the 2009 Roadmap.
- Network with industry leaders.
- Receive a copy of the 2009 Roadmap when it is released to industry next year (a US\$325 value).

Topics to be covered include:

- Office systems, portable/consumer, automotive and netcom (network/datacom/telecom) product sectors
- Environmentally conscious electronics
- Test, inspection & measurement
- Modeling, simulation & design tools
- Board assembly
- Final assembly
- Organic substrates
- Packaging

*Get an advance look at the  
electronics industry's  
future technology needs*
